GENERAL INFORMATION

In our opinion there are entirely too many varieties being introduced each year that fail to come up to expectations, or that are no improvement over older varieties in the same color class, consequently we discard them after the first year. We will not catalog newer varieties until they have proven worthy of listing.

Visitors to our field can see blooms under normal growing conditions, therefore being assured that they can get the same results without special care.

ORDERING. Use the enclosed order form. By giving us the information requested, it helps us to fill your order properly.

PRICES. We do not solicit orders under \$2.00. All orders for \$5.00 or over will be shipped prepaid. We are most generous with extras in CASH orders. No C.O.D. orders will be accepted unless accompanied with at least a 25% deposit (Minimum deposit is \$1.00). 6 bulbs at dozen rate.

BULB SIZES: Large size (L) 1-1/4" and over  
Medium size (M) 3/4" - 1-1/4"  
Small size (S) under 3/4"

Large and medium size bulbs will bloom the first year planted as will small bulbs of some varieties. Bulblets usually require two years of good growing conditions to produce flowering size bulbs.

SHIPMENTS. We usually start shipping soon after March 1st, depending upon weather conditions. Express shipments are safest so be sure and note your express office on the order blank. Due to the higher express rates we will ship by parcel post whenever possible.

OUR GUARANTEE. We guarantee our bulbs to be free of disease and true to name. Open and examine shipments immediately upon arrival. If unsatisfactory, notify us at once. Due to conditions beyond our control we cannot guarantee growth or production. At no time will we be responsible for more than the original cost of bulbs.

COLOR CLASSIFICATION. The number directly under the variety name indicates the color class that the variety should be entered in at all major shows. The first numeral in the classification number also indicates the approximate size of the individual florets.

UPON RECEIPT OF BULBS open package to admit air and store in a cool, dry place until planting time.

CAUTION. Bulbs are treated with D.D.T. dust.

GLADIOLUS CULTURE Complete instructions for planting, growing and storage of bulbs will be included with each order.
